

SACRAMENTO REPORT

Small Boat Harbors Will Come Under Division of State Lands

The Joint Interim Committee on Marine Affairs and Bay Area Development, commonly called the "Small Boat Harbor Committee" met Wednesday March 30, in the State Capitol, Sacramento. We decided that small boat harbors will be placed under the authority of the Division of State Lands, Department of Finance, Room 654, 1020 "N" Street, Sacramento.

The executive officer of the Division of State Lands is Col. Rufus W. Putnam. The assistant executive officer is J. Stuart Watson. The land title abstractor in that office is Miss Ann E. Waple. All of these people are well qualified to work with anyone interested in developing small boat harbors.

Committee Continues

The Committee voted to continue its operations with Sen. Arthur H. Breed, Jr., of Oakland, as chairman. I continue as vice chairman. The Committee also signed a detailed report on small boat harbors and sent it to the State Printer.

The Hon. Earl W. Stanley, member of the Assembly, 74th district, member of our Committee, was instructed to carry a bill appropriating not more than \$30,000 for the expenses of the Division of State Lands in the near future. This is a comparatively small appropriation and is made possible because Col. Putnam and his staff understand harbors and do not need to hire outside experts.

Boat Harbor Report

Each member of the Joint Interim Committee on Marine Affairs and Bay Area Development will have a limited number of copies of the Boat Harbor report to mail to his constituents. If you want a copy, please write to me now. I shall fill all orders, free of course, in the order received.

You certainly know that the state tax on gasoline for automobiles is used to build highways. In a similar manner, we are considering the idea of spending the money obtained from the tax on fuel burned by motorboats to build small boat harbors.

Also, we have discussed using the personal property tax on boats for the same purpose but here we might run into trouble with city and county officials who want that tax for their own purposes. What do you think? Actually, we do not regard these as new taxes but as new uses of existing taxes.

Your opinion is solicited.

Vital Water Hearings

On Thursday, April 28; Friday, April 29; and Saturday, April 30, the Assembly will sit as a Committee of the Whole to hear testimony on the water problems of the State of California. I am a member of the special committee on arrangements, which means that I represent the interests of Southern California and will have a share in managing the hearings on the three days mentioned.

One-half of the special committee is appointed from Southern California and one-half from Northern California. I have placed "Salt Water Intrusion; the Conversion of Sea Water into Fresh Water," and "Artificial Precipitation" on the agenda, simply because I now believe that the Feather River Project will:

1. Not bring fresh water to Southern California for at least 20 years;
2. The Feather River Project water will be too expensive; and
3. There are less expensive means for obtaining new fresh water in Southern California.

Tell me your opinions.

Linked With Narcotics

Whenever I attempt to have tough anti-narcotic bills enacted, I find that fellow travelers of the Communist Party, parlor pinks, and left-wingers in general violently oppose my efforts under one guise or another.

It is especially interesting to find that many of them were born in Russia, and that these are generally the same persons who oppose all of my efforts to strengthen the hands of sheriffs, policemen, and other law-enforcement officers in their fight against criminals of all types, including dope peddlers and communists.

Because of this situation, I am convinced that a vital need is for the Congress of the United States, especially the United States Senate, to investigate the connection between the narcotic traffic and subversives in the United States, especially in California.

Information coming to me indicates that Soviet Russia attempts to flood this country with dope for three reasons:

1. To undermine our ability to resist Soviet aggression.
2. To obtain American dollars for subversive activity in the United States; and
3. To seduce Americans into becoming slaves to the dope habit in order to use them as tools in the Soviet spy machinery, especially in and around defense plants in California.

If you agree with me, please write to U. S. Senator William F. Knowland, and U. S. Senator Thomas H. Eichel, Senate Office Building, Washington, D.C., and say: "Please have the U. S. Senate investigate the connection between the narcotic traffic and the subversive activities of the spies and friends of Soviet Russia."
